

# I-95 Southbound Auxiliary Lane Project

- Project Description
  - Construct a 1.5-mile auxiliary lane on I-95 South between Route 123 (Gordon Boulevard) and Prince William Parkway (Route 294)
- Project Benefits
  - Alleviate pinch points and mitigate congestion in heavily-congested area of I-95
  - Provide safer weaving movements between the on-ramp and off-ramp
  - Noise analysis to identify necessary noise mitigation
  - All improvements within existing VDOT right of way
- Funded by 95 Express Lanes Concession Fee, State, and Federal Sources
- Anticipated Completion Late 2022

# I-95 Southbound Auxiliary Lane Project
